THE CORONA VIRUS – COVID 19

RLJ-1744

JOHN S. TORELL

FEBRUARY 23, 2020

Most people do not have a criminal mind and the thought that some government agency could be using germs and viruses as a military weapon is unthinkable. But the reality is that biological warfare has been taking place since the 1920s and the worst offending nations were Germany, Japan, the Soviet Union and Iraq.

Stephen Strang, the owner of the Charisma ministry in Florida interviewed an American teacher by the name of Alexandra Rodriguez, who is a church member of Faith Assembly in Orlando, Florida. This interview took place February 20, 2020.

In September 2019, Alexandra had signed a teaching contract for 10 months, to teach English at a school in the Chinese city of Wuhan. Many Christians in the US want to do mission work in China and the only way is to get a secular job and use that skill as a cover to share the Christian faith with the people they have contact with.

THE CITY OF WUHAN

Wuhan is at the epicenter of the outbreak of the Coronavirus. This is a large modern city of some 11 million people. There are a number of American and European corporations having factories in the city, which has three national zones for location of factories. Some of the most well-known factories are Nissan, Honda, General Motors, IBM, Honeywell, Siemens and Wal-Mart. It is also the home of a large steel industry.

Wuhan also has four scientific and technology parks, 350 research institutes, 1,656 hi-tech enterprises. The large state owned Dongfeng Motor Corporation is headquartered in the city. This factory is also producing parts for Nissan, French Peugeot-Citroen and Renault, plus other auto manufacturers. In 2014 this plant produced 3.5 million automobiles and 450,000 trucks. The city also has two universities.

THE STORY OF ALEXANDRA RODRIGUEZ

Alexandra stated that toward the end of December, 2019 she heard about the Corona virus and according to the Chinese state controlled media it was stated that it was just a new strain of flu and people were encouraged to make sure they washed their hands.

Alexandra and some American friends decided to take a 10 days' vacation to Thailand and there were no restrictions for them to fly out of the city. When she came back on January 21, 2020 she said the city was a ghost city and everything was shut down. She and her friends purchased food to last them for a few weeks and when the US state department started to send in charter flights to get the Americans out, she was able to get a seat and once back in the US, she was placed with the others at a military base, where they were quarantined.

Alexandra stated that rumors from the communist government stated the virus had originated at an exotic meat market. The Communist government tried to hide the number of people who had gotten sick and it was obvious that the government was in a mode of damage control.

Strang also reported that Pastor Frank Amedia, who is working with Chinese Christians, stated that people are seeking out Christians for healing, since there is no cure for the virus. Pastor Amedia also reported that the death toll is much higher than what the communist government has stated.

Chinese Missionary Dennis Balcombe confirmed that in the midst of this crisis, where the communist government is powerless, Jesus is active in China and people are defying the government and turning to God. The result is that people have been healed and then the news spread like wildfire and more people are coming to be prayed for. What the Devil meant for evil, God is turning around and something good is coming out of this.

DR. LI WENLIANG

Dr. Wenliang, an ophthalmologist (eye doctor), noticed seven cases among his patients that he thought looked like the SARS virus, that caused a global epidemic in 2003. On December 30 he sent a message to fellow doctors in a chat group, warning them to wear protective clothing to avoid infection.

The local communist commissar in Wuhan summoned him to the Public Security Bureau. He was accused of "making false comments" that had "severely disturbed the social order." He was given a written warning: "We solemnly warn you: If you keep being stubborn, with such impertinence, and continue this illegal activity, you will be brought to justice."

There were eight other people in Wuhan who were accused of "spreading rumors."

Conveniently for the communist government, Dr. Wenliang was infected with the Corona virus and died on February 7, 2020. Dead men do not talk.

BIOLOGICAL WARFARE LABORATORY

The communist regime in China has been and is doing research in biological warfare. They hide it by constructing BioSafety Laboratories, which they claim are used to research virus infection. In 2015 the National Biosafety Laboratory Level 4 (BSL-4) was built outside the city of Wuhan. The communist government of China used French engineers to make sure that the laboratory was built to specifications. The Chinese are not that good in the field of bio-safety and some years earlier warfare biological laboratories in Beijing had lost control over the SARS virus (Severe Acute Respiratory Syndrome). US molecular biologist Richard H. Ebright raised safety concerns, as the Chinese government built a string of biological warfare laboratories.

By 2017 the BSL-4 lab in Wuhan was working on doing research of SARS and Ebola. Warnings were sent out by a number of international scientists that the lab was not safe enough and it could lead to a catastrophic effect, if dangerous virus would escape the lab.

As I will show in this article, biological warfare is not new and it is a choice weapon to defeat a nation in an undeclared war. It will be hard for a nation like the United States to prove that China developed a biological weapon and unleashed it on the United States.

If a nation like China would unleash the Corona virus in the United States, it would only do so after it had created a vaccine that could be used to protect its own citizens.

It is noteworthy that in February 2020 a research team led by Shi Zhengli from the Wuhan BSL-4 lab had applied for a patent to use "remdesivir," an experimental drug owned by the American company Gilead Sciences, which immediately raised concerns regarding international property rights.

COMMUNIST CHINA IS A HOSTILE NATION

Since the end of the Vietnam War (1975) China has tried to expand its influence in the world. It is interesting that after the war ended, Vietnam was pressured by China to give up fishing rights and mineral rights in its territorial waters. Vietnam quietly began to turn to the United States for support against Chinese aggression and its economy and military strength is due to heavy trade with the US and American investments in Vietnam.

The United States has been defending Taiwan since 1949 and the small islands between Taiwan and China. The Chinese were rebuffed during the Korean war 1950-1953.

Since 2013 China has expanded way beyond its territory and constructed man made islands in the South China Sea and then placed troops and aircraft on them and declaring that the South China Sea belongs to China. This has been infringing on the Philippines as well as other nations in the regions.

China is also clashing with the United States in space as it has placed a number of killer satellites, threatening US satellites. As long as the United States is a strong world power, China will not be able to expand; they know it and they hate it.

WHAT I BELIEVE THE LORD HAS SHOWN ME

As the Chinese biological scientists were working to perfect a biological weapon against the United States, it created the Corona virus. Antibiotics do not work against a virus. There are some medicines used to fight a virus, but if a human body is healthy to begin with, its immune system will eventually fight off the invaders. Oxygen treatment is another method to fight off a virus, and using a 35% hydroperoxide solution can be helpful.

Since we are back to the times "as it was before Noah" scientists can splice genes, change viruses to mutate and create a monster virus, that will attack the respiratory system in a human being.

The delivery system of a virus is fairly simple, have containers with the virus and place them at airports, train stations, bus depots, etc. To infect America, all they would have to do is to select a large city and release the virus.

Once the virus enters a human, the virus will now multiply in that human and surplus of the virus will be spread through coughing, breathing or skin contact. Each infected human will become a virus factory that will continue until the person succumbs to the disease.

This is why the governments are mandating quarantines for people infected or believed to have been infected. This is the only way to stop the spread of it.

A person infected by the corona virus can have the virus for up to 14 days, before symptoms show up, which makes it harder to contain. Thus a person with the virus showing no symptoms is a walking factory, spreading it to others.

Infection can take place with skin contact, and thus it will be important not to touch people, who are infected. Not all infected people will die, but it can take up to four weeks before an infected person dies.

I believe that God allowed the Corona virus to escape the laboratory in order for the Communist regime to be attacked by its own weapon system. God turned their own evil against them and the question is, how many people will die, before it is over.

The Chinese New Year was January 25th. This is the biggest holiday in China and can be compared to Christmas in the United States. Just like in the US, Chinese people use this holiday to travel to the places they came from and this is a huge family reunion. Before the quarantine took place in Wuhan, it is estimated that 5 million of them left town to travel all over China. Thus the government does not know how many people are infected and where they are.

Once the Chinese government realized what they had on their hands, they shut down the provinces around Wuhan and the city itself. Thus some 60 million people were told to stay put and not go anywhere. Public transportation is shut down, no one is working, people are not allowed to use their cars and the stores are empty of food.

Infected people are put into the back of army trucks and carted off. Makeshift hospitals have been built, but are overloaded. There are no funerals, the government has taken over all crematories and according to information leaking out from the people, they are incinerating dead bodies 24/7. The amount of cremated bodies are so great, that on satellite pictures over Wuhan the Sulphur dioxide level in the air is so high, that it shows up on satellite images. As of February 22, 2020 the unofficial death toll in China alone is more than 50,000 persons.

Since China is a communist dictatorship, the military has shut the doors to apartment houses (there are no single homes) some doors made of metal have been welded shut. Some phone videos smuggled out show people being manhandled, thrown to the floor and then into the back of a truck.

GOD HAS SEEN THE COMMUNIST RULERS

When Mau Tse Tung and his communist hordes took power in China in 1949, the first decree from this butcher was that all Christian missionaries were to leave China at once. After that he ordered all Christian churches to be closed and then started the prosecution of the church, with the blood running in the death camps from pastors, church leaders and members. In time, before Mau Tse Tung died and went to hell, he had ordered the murder of 80 million people.

President Xi and the current communist leadership continue to spill the blood of God's people and I believe that the cup is now full and God is going to use this catastrophic event in China to unseat the communists.

I believe that God is going to get honor from President Xi, just like he did from Pharaoh.

“And I, behold, I will harden the hearts of the Egyptians, and they shall follow them: and I will get me honour upon Pharaoh, and upon all his host, upon his chariots, and upon his horsemen.” Exodus 14:17

We need to pray for the people of China, believers as well as unbelievers, as most likely millions are going to die. What a horror for an unsaved person to die in a terrible pandemic and then wake up in hell!

THE HISTORY OF BIOLOGICAL WARFARE

During the Trump presidency we have learned a new phrase :“The Deep State.” President Trump has brought to the surface the real truth: there is a cabal of people working behind the scenes in Washington D.C. It does not matter who is the president, these people are able to shape American policies and commit the most horrible atrocities, without being punished.

The Deep State people are controlled by the unseen world government, whose purpose is to prepare the world for a global world dictator. As they are getting old, they are replaced with younger people and this group exists from decade to decade.

The Deep State wanted to get a hold on the people, who had worked and developed biological warfare in Nazi Germany as well as in Japan. American Counter Intelligence Corps (CIC) agents followed the American soldiers as Germany was conquered in 1945. One of the most sought after Nazi criminals was the German Health Director Kurt Blome, who was a medical doctor and research scientist. In 1943 he was in charge of biological warfare and as such he had his own research laboratory.

Around his compound was a ten foot wall, which was guarded by a SS detachment.

Inside there were cold rooms, incubators, deep freezers, steam chambers. Thousands of men and women were used at this lab and infected with viruses, germs, and exposed to nerve gas, etc. The suffering afflicted on these victims cannot be told in words, it was more than horrible.

Blome was arrested by CIC agents on May 17, 1945. Secretary of War Henry Stimson recognized that the Japanese had an advanced biological warfare program and Stimson ordered the US military to protect Blome and to eventually bring him to the United States under Operation Paperclip and have him work in the US biological warfare department.

He was tried at the post war Nazi trials in Nuremberg and found not guilty, despite that he had ordered thousands of prisoners to be gassed, injected and abused. Two months after his acquittal at Nurnberg, he was interviewed by American biological warfare experts from Camp Detrick in Maryland. He was considered "too dirty" to be brought to the United States; instead he was hired in 1951 by the U.S. Army Chemical Corps and his official duty was to work on chemical warfare, which was a cover for biological warfare.

Ira Baldwin was a professor at the University of Wisconsin and headed up the Department of Bacteriology. In 1943 he was asked by the Army to head up what

became known as the U.S. Army Biological Warfare Laboratories at Camp Detrick, Maryland.

One of the agents produced at the American bio lab was "anthrax." This is a highly infectious bacteria that causes fever, chest pain, shortness of breath, diarrhea, nausea and vomiting. The death rate has a mortality rate of 50-80%.

BIOLOGICAL WARFARE TESTING

It is not enough to have biological warfare labs, testing must be done to see how it can be applied on people. The Deep State ordered a test in 1950 and the testing ground was the city of San Francisco. From September 20 to 27, 1950, U.S. Navy ships equipped with dispensers, started to spray into the sea fog, a mixture of *Serratia marcescens* and *Bacillus globigii* bacteria.

The navy had set up 43 locations in the city to monitor that enough bacteria had been sprayed to cover all 800,000 residents of the city.

By October 11, 1950 eleven patients had been admitted to Stanford Hospital, all having rare serious urinary tract infections. One of them later died.

In a 1977 Senate sub-committee hearings, the U.S. Army disclosed that they had directed the Navy to do the testing and that no local government officials were told about it. There had also been people coming down with pneumonia.

THE AMERICAN GOVERNMENT CANNOT BE TRUSTED

Look at these facts: From the 1977 Senate sub-committee hearing the US Army admitted that it had conducted many biological tests on the American people.

1. From 1949-1969 open-air tests of biological agents were conducted 239 times.

In 80 of these tests live bacteria was used, which turned out that the bacteria was not harmless and caused sickness among the people that could not be explained.

2. In the 1950s, Army biological warfare researchers sprayed *Serratia* bacteria over Panama City and Key West in Florida. The army did not release any data on how many people got sick.

3. Also in the 1950s Army biological researchers released from aircraft the cancer causing agent zinc cadmium sulfide over Minnesota and other Midwestern states to find out how they would spread in the air. Particles were detected more than 1,000 miles away in the state of New York. If there was a follow up, it was never disclosed to the public, thus it is not known how many people got sick.

4. A favorite trick of the US army at this time period was to have a spraying dispenser at the back of a car and then to have a US serviceman drive the car on the street. This was done in the cities of San Francisco, New York, Washington D.C. and on roads in Pennsylvania. The agent used this time was *Bacillus globigii*. No data is available on how many people got sick.

4. In 1966 military planners wondered what would happen if a foreign government spread bacteria in subway systems. Glass containers looking like light bulbs were used by army agents. The glass containers were filled with *Bacillus subtilis*, which the

government thought would be harmless. The army agents dressed like civilians would get to the subway in midtown Manhattan and then throw them on the tracks, where they broke. Testing the different stations along the subway they found that the pathogenic agent travelled miles through the entire subway system.

5. During the month of May, 1965 Bacillus globigii was released in the air at Washington's National Airport and at the Greyhound bus depot. It was a controlled experiment covering 130 bus riders, who travelled to 39 cities in seven states. Again no data had been released from the government how many people got sick from this experiment.

These are the known testing programs; most of them are hidden and will never be known.

DUGWAY PROVING GROUND

Dugway proving ground is a U.S. army base, some 100 miles west of Salt Lake City. The base had a laboratory and they were testing different forms of anthrax. It was also used for testing weapons of mass destruction like nerve gas and during the years of testing some 500,000 lbs of nerve gas was released in the air. According to released records from the Army, there were 332 open-air testing of biological weapons, including 74 dirty bomb tests, when normal bombs were loaded with radioactive material to see how far it would spread the damage it would do to enemy soldiers.

On March 13, 1968 the army conducted nerve gas testing. An artillery shell loaded with nerve gas was tested and on an open pit 160 gallons of nerve gas was released and allowed to evaporate. At the same time a U.S. Air Force plane was used to spray nerve gas over an open range area, where they had set up testing stations.

I lived in Salt Lake City at that time and I remember the reporting on the local TV station that suddenly 6,000 sheep had died suddenly on a range land west of Salt Lake City. First there were a lot of denials, but eventually the Army had to confess that they had been testing nerve gases and that the gas had gotten away from them and spread over a sheep ranch and killed all the sheep.

SUMMARY

The governments of the different nations do not like to tell the people that they are all involved in biological warfare testing and that most nations have them in their arsenals.

Therefore it should not come as a surprise, that China has biological warfare labs and that they had planned to use it on the United States.

The different intelligence services in Russia, China, Iran know all about the American biological warfare program, including the use of nerve gases. In order to deter the US from using it, they produce their own weapons and thus the people in the world are living in a very insecure environment, one mistake, one slip and death is on its way, like with the Corona virus.

As Christians we can stand on this promise from Jesus:

“And these signs shall follow them that believe; In my name shall they cast out devils; they shall speak with new tongues; They shall take up serpents; and if

they drink any deadly thing, it shall not hurt them; they shall lay hands on the sick, and they shall recover. So then after the Lord had spoken unto them, he was received up into heaven, and sat on the right hand of God. And they went forth, and preached every where, the Lord working with them, and confirming the word with signs following. Amen.” (Mark 16:17-20)

Remember, it's not so important how you begin your life after salvation, but how you finish it!

Do you have an ear to hear with?
