Resurrection Life of Jesus Church presents

SCOTT LIVELY

THE GLOBAL HOMOSEXUAL MOVEMENT AS A THREAT TO WESTERN CIVILIZATION

January 15, 2012
10:30 AM

Over the span of just fifty years the homosexual political movement has transformed itself from an underground subculture shunned for its practice of illegal sexual deviance into a global cultural and polical force with greater influence in the legislatures and courtrooms of the western world than the Christian church. How has this occurred and what can Christians do about it?

Scott Lively is an attorney, pastor, author and international human rights consultant who has devoted more than 20 years and travelled to more than 30 countries to study this phenomenon and to equip Christians to respond to it. Don't miss this presentation of his unique and valuable insights on the most important moral issue of our time.
