WHAT ABOUT THE SWINE FLU?

RLJ-1208

JOHN S. TORELL

OCTOBER 18, 2009

For many years I have been preaching of the Antichrist system that will someday come into power and affect all people living on the earth. We have always thought that this was something that would happen far into the future but the naked truth is that it's just around the corner.

SWINE FLU

I am not going to go into detail about the swine flu or the vaccines which are being forced upon the people because we are going to release documentation very shortly that will deal with these issues. But I would like to ask two questions which need answers:

1. How can the health authorities know some two years in advance what kind of flu will arrive next?
2. How are they able to produce vaccines for an outbreak of a predicted flu?

The only logical answer is that someone is creating flu viruses, cross breeding them and then releasing them into the general population. We saw evidence of this earlier this year in Mexico when the swine flu suddenly appeared out of nowhere. Most people don't know that when a vaccine is made, it is loaded with a number of other preservative ingredients, of which the most common is mercury, known as "thimerosal."

DOES THE GERMAN ARMY KNOW SOMETHING WE DO NOT?

In a recent report from Jane Burgermeister in Austria we are told that the German Army Command has decided to only use the swine flu vaccine which contains no preservatives. Here is an excerpt of this report:

"The German army announced on Monday (October 12, 2009) that it is planning to give its 250,000 soldiers "swine flu" jabs without toxic heavy metals and adjuvants because of growing fears over their safety.

According to a report in the Bielefeld "Westfalen Blatt", the German army decided to switch to vaccines without mercury and squalene ¹ after doctors warned that GlaxoSmithKline's Pandemrix and Novartis's Focetria "swine flu" jabs with the untested toxins could have "incalculable side effects."

Baxter - the company caught contaminating 72 kilos of vaccine material with the live bird flu virus in Austria in February, so nearly sparking a global bird flu pandemic - has just announced it is putting onto a market a swine flu jab called Celvapan but in a form that is

¹ Squalene is a natural organic compound normally made from shark liver oil. It stimulates the immune system and increase the response to a vaccine.

without adjuvants and apparently also without mercury in response to growing protests inside Germany, especially from the federal states.

Baxter's Celvapan is also due to be used in the mass "swine flu" vaccination campaign starting in Austria from October 27th.

The German government's vaccine advisory commission was reportedly surprised over the army's decision to use a different vaccine from the one to be given to the rest of the population.

The German Health Minister Ulla Schmidt, who has been pushing the WHO-mandated swine flu jabs with heavy metals and adjuvants, said that a discussion about why the army chose to use different vaccines over safety fears was "surperfluous" during an EU meeting of health ministers in Luxembourg.

"The fuss that has been created today by this cannot be justified by anything," said Schmidt, insisting all the "swine flu" vaccines are safe.

The growing protests have resulted, however, in Schmidt having to back track on plans to give pregnant women the "swine flu" jab with adjuvants.

The decision by the German army not to give its soldiers the untested and toxic swine flu jab will raise questions about why other armies, including the US army, is going ahead with plans to give its soldiers the lethal jab in spite of the growing evidence these jabs will cause more death autoimmune diseases.²

GERMAN ARMY OPPOSES HEALTH MINISTRY

Just a day later, another report came out from Germany:

German army health officials have ignited a fierce debate about the dangers of the "swine flu" vaccine by announcing on Monday that its soldiers are going to be given a completely different swine flu vaccine than the one ordered for the army by the German health ministry.

Virologist Alexander Kekule, head of the department of medical microbiology at Halle University, said that the army had "given a slap in the face to the health ministry" but had "made the only right decision" by deciding to give its 250,000 active duty soldiers a jab without mercury, without squalene and also with an inactivated virus.

The army "doctors and advisors were simply more clever," he said in the German mainstream newspaper Die Welt.

The announcement by the army has increased the pressure on the German health ministry to explain why the rest of the people in the country are expected to take the untested and unproven "swine flu" jabs with mercury, adjuvants as well as a live virus in a campaign starting on October 26th.

German Health Minister Ulla Schmidt tried to play down the significance of the army's decision by insisting there were three different swine flu jabs on the market and suggesting the army had just happened to choose the one without mercury and adjuvants.

² <http://tinyurl.com/yhrsr4w>

However, it is accurate to say that there were three different manufacturers – Novartis, GSK and Baxter - providing the same standard swine flu jab with mercury and adjuvants on the market until the army, other German health officials and doctors insisted on having a jab without the dangerous preservatives and additives.

It appears that Baxter – the company compromised by having been caught trying to trigger a bird flu pandemic this february in Austria by contaminating 72 kilos of vaccine material with the live bird flu virus – has been sacrificed by WHO and the pharmaceutical companies that sit on its key vaccine boards and given the green light to switch over to produce a “harmless” vaccine without mercury and adjuvants to save face and also possibly ensure that nanochips -- widely believed to be in the jab – are implanted into as many people as possible.

The army’s unexpected decision is fuelling uneasiness about the mass “swine flu”vaccination campaign due to start in Germany on October 26th.

Theodor Windhorst, the president of the chamber of doctors of Westfalen-Lippe, has said that the swine flu jab is associated with “significant risks.”

The number of leading doctors calling for swine flu jabs without adjuvants to be given to women and children has been steadily growing.

Pregnant women, children and health care workers are among the target groups selected by the German health minister Ulla Schmidt, following the instructions of WHO, to be among the first to get the swine flu jab even though there is no clinical data on the adjuvant squalene in pregnant women or children.

Under growing pressure, however, Schmidt this week said that pregnant women will now be advised to take the jab without the adjuvant, squalene, which is to be added at the last moment to form a toxic mix.

Squalene is illegal in the USA and UK, and there is evidence it caused the Gulf War Syndrome which afflicted 25 per cent of the US and UK soldiers who took the anthrax vaccine, even though that vaccine had a million times less squalene than the “swine flu” jab.

German army health officials said that it was not clear how the “swine flu” jab would interact with the other vaccines German soldiers have to take, especially if they are sent on overseas missions and also what the impact of the accumulation of toxic heavy metals might be.

“We are not something better, but something different,” said an army spokesperson.

However, there are growing numbers of people in Germany wondering why they are expected to take a “swine flu”jab by the Health Ministry that is considered to dangerous for the army.

The decision by the German army to abandon the “swine flu” jab also raises the question of why other country’s army leaderships are not open to feedback on the jabs dangers, and willing to assess new information and correct their vaccination plans.

The US and UK army already have a large body of evidence that the anthrax vaccine caused significant auto immune diseases in its soldiers, and yet these armies appear to be pushing ahead with ist campaign to force every soldier to take the dangerous jab.

The decision by the top level US military to implement the mass vaccination campaign of US soldiers at bases at top speed will fuel fears that the US army, in particular, has been taken over by agents working for the “the banking elite,” who control the WHO and UN and who appear to be actively attempting to destroy the US army in order to pave the way for the occupation of America by UN soldiers and foreign mercenary troops in a “New World Order”.

US army leaders who have raised questions about the mismanaged campaigns in Afghanistan and Iraq – triggered by the false flag 9/11 attack -- have been silenced or forced to resign, leaving the military top heavy with government “yes” men.

The decision by the German army to refuse the “swine flu” jab is a significant blow to plans of the WHO and UN to carry through a synchronised and swift mass vaccination campaign across the USA and EU using bio weapons under the cover of a “vaccine” to accomplish their objective of depopulation and conquest.

Crucial to accomplishing their aim of world domination under a WHO/UN/IMF government is maintaining control of a country’s military and law enforcement, at least, long enough to use them to destroy the civilian population by vaccination and quarantines.

The next step would require the army and police, having done its job, to be destroyed in turn by disease or by igniting fresh wars.

There has been speculation that soldiers and police might be given a vaccine with a disease that can be triggered by chemicals in water or some other means, allowing the disease to be activated at some pre-planned point later on.

The danger now facing the “WHO/UN” bankster cartel is that other armies will refuse the swine flu jab – and that civilian populations will follow suit and demand a proper investigation in the “swine flu” scam, a move that will surely result in large numbers of arrests.

Without a significant “culling of the population” and the installation of a comprehensive, electronic surveillance system using nano chips, the WHO/UN cartel will find it difficult to maintain control of their synchronised and coordinated programme to depopulate the world and set up a one world government with the calculated use of economic collapse, war and famine as well as the establishment of a totalitarian state to crush opposition and shut down the internet.”³

Just for clarification, “WHO” is the acronym for “World Health Organization,” a United Nation (UN) Department. What is a “nanochip?” We have all heard about the microchip which is used to tag animals, new born babies upon the request of the parents. A nanochip is extremely small and cannot be used in the same capacity as a microchip, but by inserting nanochips in the vaccines, the person

³ <http://tinyurl.com/yhuvy4k>

can later be tracked at airports or checkpoints if they have taken a vaccine and what kind it was.

A BIBLICAL RESPONSE TO THE SWINE FLU THREAT

I would like to address the swine flu from a spiritual standpoint. The first Scripture that comes to mind is this passage:

“For though we walk in the flesh, we do not war after the flesh: For the weapons of our warfare are not carnal, but mighty through God to the pulling down of strongholds; Casting down imaginations, and every high thing that exalteth itself against the knowledge of God, and bringing into captivity every thought to the obedience of Christ...” (2 Corinthians 10:3-5)

As human beings, we are fighting sickness in the form of a flu and a wicked government that is trying to control the population by infecting them with harmful materials which will lead to an early death. Trying to fight this in the flesh will not work; it has to be done by the power of the Holy Spirit.

This leads me to ask if we have a spiritual legal ground to stand on when it comes to sickness? Can sickness be avoided? Did Jesus do anything for us in this area? Yes, and I will prove that through three different Bible references:

“Who hath believed our report? and to whom is the arm of the LORD revealed? For he shall grow up before him as a tender plant, and as a root out of a dry ground: he hath no form nor comeliness; and when we shall see him, there is no beauty that we should desire him. He is despised and rejected of men; a man of sorrows, and acquainted with grief: and we hid as it were our faces from him; he was despised, and we esteemed him not. Surely he hath borne our griefs, and carried our sorrows: yet we did esteem him stricken, smitten of God, and afflicted. **But he was wounded for our transgressions, he was bruised for our iniquities: the chastisement of our peace was upon him; and with his stripes we are healed.**” (Isaiah 53:1-5)

“And when Jesus was come into Peter’s house, he saw his wife’s mother laid, and sick of a fever. And he touched her hand, and the fever left her: and she arose, and ministered unto them. When the even was come, they brought unto him many that were possessed with devils: and he cast out the spirits with his word, and healed all that were sick: That it might be fulfilled which was spoken by Esaias the prophet, saying, **Himself took our infirmities, and bare our sicknesses.**” (Matthew 8:14-17)

“Who his own self bare our sins in his own body on the tree, that we, being dead to sins, should live unto righteousness: by whose stripes ye were healed.” (1 Peter 2:24)

I have a legal right not to be sick! You as a believer in Christ have a legal right to be healthy!

As a minister of the Gospel, I am in the same boat that you are in and I have no more power than anyone else. It is coming down to do or die. Let us share with what we as a ministry plan to do as we face the same dangers you do:

1. We are going to make sure that we do not have any bitterness or unforgiveness in our hearts. **Matthew 6:9-15**
2. We are going to stand on the Scripture that states that we must come to God in faith. **Hebrews 11:6**
3. The joy of the Lord is our strength. We are going to rejoice in the Lord every day just as we have tried to do for the last 43 years. **Philippians 4:4-8**
4. We are going to stand on the strong promise of Jesus. **Mark 16:15-20**
5. We will continue with a healthy diet, taking our vitamins and supplements, making sure that we get enough sleep, doing our regular exercising and trying not to get stressed out.
6. We will proclaim that the Holy Ghost is stronger than any virus or any poison and through Christ we will overcome! **Philippians 4:13**

Are we planning on taking the regular flu vaccine? No! Are we going to take the swine flu vaccine? Definitely not! ***We have been vaccinated by the Holy Ghost and the fire is burning in our bones! We are praising God and giving Him all the glory and praise that we can muster! Be sure to join us.***

Remember, it's not so important how you begin your life after salvation, but how you finish it!

DO YOU HAVE AN EAR TO HEAR WITH?
