RAPE IN CALIFORNIA PRISONS

I want to start with the insanity in democrat run California. The homosexual revolution started in the 1960s and now there is a different breed called “transgender.” This group consists of men and women who feel trapped in their bodies. Men are claiming to be women and vice versa.

The first reported transgender surgery took place in 1952 with George Jorgensen when his penis was replaced with an artificial vagina. He also received hormone treatment to create female breasts. The operation took place in Denmark and George returned to the United States as Christine Jorgensen.

Since that time, thousands of men and women – confused by the Devil – have changed their sexual status. A number of the men have opted to receive hormone treatment to grow female breasts, but refused to remove their male organ. They look like a woman, but they are in reality a hybrid.

The Democrat-run legislature in California has authored laws allowing anyone to do a sex change without the recommendation of a doctor. Furthermore, employers and prisons must accept a transgender and cannot discriminate against them.

Some 300 incarcerated men have declared themselves to be transgender, but very few have been surgically altered. Blazemedias reported that a female prisoner in California had become pregnant after a male transgender prisoner was placed in the same cell.¹

The wardens for the female prisons cannot stop transgender men from transferring to their prisons, and instead of protecting the females from rape by these men – some were incidentally convicted of rape – the wardens strangely ordered condoms for the female prisoners. Ostensibly so they can ask the transgender man to use a contraceptive before he rapes her. That is insanity!

Many of the women in prison say it is a nightmare to be locked up with a male rapist every night. Even worse, the guards are told not to intervene when they hear the desperate cries of the victims as these predators attack every night.

This is more diabolical than what took place in Nazi Germany, Soviet Union, or even in modern day China as incarcerated citizens of the United States are not being protected in California penal system. The laws created by Democratic legislators and signed by a Democratic governor have effectively removed their rights.

JOE BIDEN'S DESTRUCTION OF AMERICA

Joe Biden signed some 16 executive orders on the first day in office, most of them rescinding what President Trump had done during his time in office. The most damning

¹ <https://www.theblaze.com/news/california-female-inmate-pregnant-transgender-policy>

and destructive thing to the United States was re-entering the Paris Climate Accord that took effect on November 4, 2016. Donald Trump pulled us out and Joe Biden – the consummate globalist – put the chains back on with this international treaty.

Biden also signed an executive order that halted the Keystone XL Pipeline construction, that would have been used to transfer crude oil from Canada to refineries in the United States. A couple of months later Biden agreed for Russia to complete its crude oil pipeline from Russia to Germany via the bottom of the Baltic Sea. Biden also attacked the American fracking industry and destroyed a large percentage of our oil production. After just six months in office, Biden has reduced American oil production from self-sufficiency to being forced to import it. This is the reason for the price hike.

Even a kindergarten child can recognize that an American president should not hurt his own nation and favor the Russians. It only makes sense if you know that Biden is a globalist and wants the United States to become a region of the future World Federation. This is the reason the American economy must be suppressed.

In the meantime, Canada is now forced to build a pipeline to its west coast and sell crude oil to communist China. The Democratic party claims to be a friend of American workers and their unions, but with the shutdown of the Keystone Pipeline, tens of thousands of skilled union workers have lost their jobs and have no place to go. Biden and his cronies don't care! They have an agenda which coincides with the demise of the United States and the rise of the World Federation!

TURNING AFGHANISTAN OVER TO THE TALIBAN

The United States and its NATO allies have begun pulling out of Afghanistan and the Taliban is ready, having aligned themselves with Russia, China, and Iran. They currently control 66% of the country and I wonder if the military leaders remember the fall of Saigon and South Vietnam in 1975? Efforts are seemingly underway to remove all Americans from the capital of Kabul, including closing down and destroying the American embassy.

After 1975, thousands of South Vietnam military forces were either killed or sent to re-education camps. Christians were killed and all hell broke loose in the South Vietnam. People fled by the ten thousands in boats and many walked into Cambodia and Thailand.

Sadly, it is the Christians who will suffer in Afghanistan. None of the Taliban are going to experience any hurt. There will be torture, beheadings and concentration camps for the enemies of these Jihadists. Joe Biden and his cronies are not going to cry for the Christians and Afghan allies, they mean nothing to these globalists.

There is no place for Afghans to flee. To the north are Muslim nations, to the west is Iran and to the east is Pakistan. All we can do is pray for God to intervene supernaturally.

FENTANYL

Fentanyl is a powerful synthetic opioid that is similar to morphine but is 50 to 100 times more potent. It is a prescription drug that is also made and used illegally. Like morphine, it is a medicine that is typically used to treat patients with severe pain, especially after

surgery. It is also sometimes used to treat patients with chronic pain who are physically tolerant to other opioids. Tolerance occurs when you need a higher and/or more frequent amount of a drug to get the desired effects.

Synthetic opioids, including fentanyl, are now the most common drugs involved in drug overdose deaths in the United States. In 2017, 59.8 percent of opioid-related deaths involved fentanyl compared to 14.3 percent in 2010.

How do people use fentanyl?

When prescribed by a doctor, fentanyl can be given as a shot, a patch that is put on a person's skin, or as lozenges that are sucked like cough drops.

The illegally used fentanyl most often associated with recent overdoses is made in labs. This synthetic fentanyl is sold illegally as a powder, dropped onto blotter paper, put in eye droppers and nasal sprays, or made into pills that look like other prescription opioids.

How does fentanyl affect the brain?

Like heroin, morphine, and other opioid drugs, fentanyl works by binding to the body's opioid receptors, which are found in areas of the brain that control pain and emotions. After taking opioids many times, the brain adapts to the drug, diminishing its sensitivity, making it hard to feel pleasure from anything besides the drug. When people become addicted, drug seeking and drug use take over their lives." End of article

Fentanyl's effects include

- ❖ extreme happiness
- ❖ drowsiness
- ❖ nausea
- ❖ confusion
- ❖ constipation
- ❖ sedation
- ❖ problems breathing
- ❖ unconsciousness²

"The flow of fentanyl into the United States in 2019 is more diverse compared to the start of the fentanyl crisis in 2014, with new source countries and new transit countries emerging as significant trafficking nodes. This is exacerbating the already multi-faceted fentanyl crisis by introducing additional source countries into the global supply chain of fentanyl, fentanyl-related substances, and fentanyl precursors. Further, this complicates law enforcement operations and policy efforts to stem the flow of fentanyl into the United States. While Mexico and China are the primary source countries for fentanyl

and fentanyl-related substances trafficked directly into the United States, India is emerging as a source for finished fentanyl powder and fentanyl precursor chemicals.”³

FORCING OPIUM ON CHINA

England and the United States have dirty hands when it comes to the opium wars fought with China. The first opium war between China and England took place 1839-1844, when the British defeated the Chinese army and forced the government to accept the flow of opium into China, which enslaved millions of Chinese people.

The Chinese government tried to resist as much as possible in order to save its citizens from succumbing to the deadly addiction of opium. The British and American government decided that further military actions in China were needed and this became known as “gun boat diplomacy.” The second opium war raged from 1857-1859 when British and American naval forces with ground troops defeated the Chinese army and forced more opium upon the Chinese people.

This shameful activity has not been forgotten by the Chinese people and now it is payback time for America, which is reeling from the flow of fentanyl from China.

THE BORDER CRISIS WITH MEXICO

Joe Biden and his staff immediately started to reverse President Trump’s border policies. While most of the border fence with Mexico was completed, there were segments that had not been completed. The material was in place, contracts were signed with American contractors, and the border fence could have been completed in a very short time. Biden ordered all work to cease and the material paid for by taxpayers was left on the ground. Contracts were rescinded and workers were laid off.

President Trump had an agreement with Mexico that anyone traveling through Mexico to the border with the United States would be kept in Mexico while their applications were processed. Biden abolished that policy. He magnanimously went on television and told the world that the border was open and no one would be sent back.

The U.S. Immigration and Customs Enforcement (ICE) was told to scale back. It could no longer apprehend those crossing the border illegally. Criminal cartels from Mexico and other South American countries are forcing parents to give up their children, who are brought to the border and pushed over to the U.S. side. Since they had no adults with them, border patrol is using most of its manpower to rescue the children from desert areas, allowing the drug smugglers could cross freely over.

During the first six months of this year, more than one million people crossed the border illegally. This includes people from Syria, Iraq, Yemen, and African nations. Radical terrorists have been able to enter the country and set up a base of operation from which they will use to commit terror acts.

It is estimated that 100,000 children have crossed the border with no parents and there are more than 1 million adults. No one is strenuously checking for COVID-19 and many of these people are infected with the virus. Since there are no holding facilities capable of holding this many people at the border, buses arrive daily and take them to federal

³ www.dea.gov/documents/2020/2020-03/2020-03-06/fentanyl-flow-united-states

holding facilities throughout the nation. While Americans are locked down, forced to wear masks, and threatened with job loss if they aren't vaccinated, there is no such parity for the illegals.

This would be considered insanity, particularly since the border with Canada had been mutually closed. This is not insanity, it is treason, and the Biden administration is diligently working to destabilize our nation. The end game is where we lose our sovereignty and become a member of the World Federation.

ATTACKED ON FOUR POINTS

In my biography, *My Life, My Calling, My Destiny*, I have laid out four ways in which I have been attacked and smeared by churches, denominations and pastors.

1. Teaching about the Holy Spirit and the baptism of the Holy Spirit.
2. I have been labeled Antisemitic for exposing the Kabbalah, Zionism and how the Antichrist is going to emerge from Israel.
3. Teaching about demons and deliverance.
4. Praying for the sick.

GOOD NEWS

We recently received a phone call from a man in Colorado. Chad had been a smoker for 40 years, and when he heard me speak about the Holy Spirit, he prayed and was baptized in the Holy Spirit, and his addiction to nicotine was instantly gone. He had also been an alcoholic for ten years and was also delivered from this habit.

Our ministry has been praying for people to be set free since 1969 and we have knowledge and the power of the Holy Spirit.

There is power in the name of Jesus. There is power in the Holy Spirit. The power of God is real. **John 14:6-15**

Christians do not retire. **John 17:9-21**

Confess the sins in your life. Turn from the ways God abhors and become part of the solution instead of being part of the problem. **1 John 1:4-10**

Remember, it's not so important how you begin your life after salvation, but how you finish it!

Do you have an ear to hear with?
